I can't recommend this game sorry. The RNG is just waaaaaaaay too annoying, for some stupid reason when you attack an enemy you are guaranteed to take damage (even if you would kill them). There's tons of grinding (for gold, blueprints and gems that give permanent stat upgrades). Drumroll please.....some enemies steal your stuff WHEN THEY DIE. Sorry if this review comes off as very bitter but I just went through 34 floors of an Act 3 Dungeon and upon entering the 35th the boss didn't spawn. Effectively making progress impossible...ON THE LAST FLOOR.

EDIT: I beat the Last Level and Boss using its own ridiculous RNG against it.. Awesome game, i am enjoying it a lot! fun gameplay, unique art style and mechanics!. How interesting! I want to continue typing on my keyboard :). Not many improvements but still good. Pretty good game, i liked every minute of it. 7/10

This is one of the more average 'Choice of' Games I've played. Overall, I found it enjoyable, and if you are interested in the premise, I think it is worth a try. It's not mind-blowingly amazing, but I don't regret the purchase. The side characters and romance options are some of the more memorable ones. However, some of the chapters are a little only the slow side, despite the occasional interesting parts. It never really gripped me with suspense or curiosity, but that doesn't make it a bad story. Overall, good characters, mediocre story.

wow what a great game ,i love it . great sound , visuals and gameplay . and quite hard.. This game is very cool , and have some good humor to it. best game .. better than league3. I like to play point and click games and took a chance with this one. I kind of like this game, but come on, who did this dialog. Did they really have to use the term "DUDE" all the time. I hate that word and doesn't even work with this game. And, did they really have to say those cuss words all the time too. Really distracts from the story line. Wish they used more Brit accents then American. Just my opinion. Otherwise, pretty good.. So this is sort-of a companion to Talk to Aya. In this case, you are talking with Saki (who happens to be Aya's best friend). Saki is a more outdoors/Venergetic type. So there are different keywords you must try, and times to access the "game" to get the achievements.. This is a good game! Fun gameplay and a good variety of modes. I like that it makes me start from the beginning after a game over, instead of continuing where I died (although continues can be unlocked). Makes me feel like I'm earning every bit of progress. Fun!. I was playing this game and some unknown person joined in, and after a few minutes he typed my steam password in chat idk how that happend but i closed the game immediately after that. I bought this game while waiting for Mighty No. 9 in an attempt to try a classic megaman game. With that said this game will deliver on a Megaman feel now that the gun energy resource has been buffed but for the people looking for a Megaman game, don't do this to yourself. Play a megaman game not a immitator. For the price its really nice. Took me a while to get round to playing it, but worth the wait.

Immersive, well-written and fun. The option to backtrack to any other point in your journey is a great touch, in my opinion.. I have enjoyed this game.
